

PART-TIME

ELECTRICAL DRAFTER – AutoCAD 2013

N.A.C. Electric, Inc. is looking to expand our team with a part-time, on-call, per project basis ELECTRICAL DRAFTER with AutoCAD skills. The credible candidates will have Electrical Drafting experience, a proficiency in AutoCAD and experience with multiple electrical scenarios.

N.A.C. Electric, Inc. is a full-service electrical contractor that serves commercial and industrial clients in Las Vegas, NV and surrounding areas. The company is unique as being one of the top leaders in the field of electrical petroleum contractors on the West Coast. In addition to electrical repairs, installations, inspections and upgrades, the company designs and builds electrical systems, does ground up electrical construction, off-site utility work, convenience stores, tenant improvements, as well as a variety of low voltage services.

Created in 2007, N.A.C. Electric, Inc. has grown and diversified to become one of the most respected and professional electrical contractors in the construction and petroleum industries. Our valued employees and their commitment to the company and its quality have given us our strong reputation in excellence and customer service.

The ELECTRICAL DRAFTER that joins our team will be qualified in the following:

- Work from sketches, notes or verbal instruction or existing drawings.
- Develop working plans, detailed drawings, schematics or assemblies in AutoCAD.
- Modifies drawings.
- Maintains AutoCAD files.
- Proficient in AutoCAD 2013. Knowledge of other computer programs a plus.
- Excellent organizational skills. Able to multi-task and prioritize. Possesses good mathematical skills.
- Highly efficient and attentive towards details.
- Team player: conscientious towards co-workers, reliable and dependable.
- Has exceptional work ethic and takes pride in all aspects of their actions and decisions.

Employer offers:

- Compensation based on experience
- Medical benefits
- Dental benefits
