Director’s Note: Focus on math courses (and Physics for MEG, CEE, COE, and EE majors) because these classes move you forward in the major courses, where most general education classes just need to be completed by the time students graduate.

Program Specific Information: Grades of a C or higher must be earned in any English, Mathematics, Science, Construction Management and Engineering courses. For more information on this program refer to <http://engineering.unlv.edu/>.

The Howard R. Hughes College of Engineering has a policy on the maximum number of attempts that are allowed to successfully complete a course in the undergraduate curriculum. Students are allowed a maximum of three attempts in an engineering, computer science or construction management course. Under this policy, the attempts include all attempts that result in a course grade of “A-F”, “AD”, “S/U”, “I” or “W”. The only exceptions to the repeat rule could include withdrawals for medical or military duties.

Transfer Policies:

REVISED 50/50 RULE

- The policy stating that UNLV will only accept up to 60 credits to be transferred and applied to any specific program/major is no longer in place. Unless a college/major has a specific requirement on credit limitations i.e., Lee Business School, College of Education, transfer credits from 2-year institutions should no longer be limited to 60 credits. At least 30 credits of upper division from UNLV are now required to obtain a Bachelor's.

REPEAT POLICY

- Students may retake a CSN course as often as needed to gain a better grade and, thereby, a higher grade point average. Only the highest grade received will count as part of the total CSN

grade point average. All repeated courses taken at CSN will remain as part of a student's permanent academic record.

*PLEASE NOTE: While CSN accepts the BEST grade, UNLV accepts the LAST grade.

- To improve GPA and change the original grade the course must be repeated at the institution that it was completed. For example, if a student takes MATH 124 at CSN and receives an F the course must be repeated at CSN to replace the grade and improve the GPA.

REVERSE TRANSFER

- Students who have earned 15 or more credits at CSN and have transferred to a four-year institution without an associate's degree may "reverse transfer" the earned credits from the four-year institution to complete an associate's degree. This process makes it possible for students to earn an associate's degree as they continue to work toward completing their bachelor's degree.

NOTE: Some courses that fulfill specific general education requirements at CSN may fulfill different general education requirements at UNLV. Please see a UNLV/CSN Transfer Program Advisor to confirm your choices.
