There could be medical costs associated with testing, vaccination, etc. Additional subscriptions or materials could be required if students are displaced from their site due to a community health emergency.

Financial Aid

Most interns enrolled in UNLV DI-Supervised Practice only are not eligible for federal financial aid because completing this portion only does not result in a conferred degree. (Students simultaneously enrolled in a graduate degree granting program may be eligible.) However, most students are eligible for private student loans. We will certify to lending agencies that the intern is enrolled in six graduate credits and is enrolled in full-time supervised practice. For more information on financial aid please click here for the [website](#).
