

INTERNSHIP & CAREER SERVICES

HOWARD R. HUGHES COLLEGE OF ENGINEERING

ENGINEERING INTERNSHIP OPPORTUNITY

Posting ID: I011516

Company: Southwest Gas Corporation

Company Website: <https://internships-swgas.icims.com>

Job Title: Engineering Internship

Work Location: 5241 Spring Mountain Rd. Las Vegas, NV 89150 and 6355 Shatz St. Las Vegas, NV 89115

Position Type: Intern, 11 openings

Salary: \$18/hour

Job Start/End: May 23, 2016/August 12, 2016

College Level: Sophomore, Junior, Senior or Masters

OVERVIEW

Southwest Gas is excited to announce that we are currently recruiting for Internship positions in our Engineering Department. Southwest Gas is a natural gas service provider serving more than 1.8 million customers throughout Nevada, Arizona and Southern California.

Role and Responsibilities

This is a Summer Engineering Internship program for our Las Vegas, Southern Nevada operations and corporate engineering functions. We are looking for smart, enthusiastic and self-motivated engineering students that have good communication skills, critical thinking skills, are well organized, are detail-oriented and can work independently in a fast-paced environment.

The summer internship program is designed to provide a foundation of technical knowledge and professional experience while giving students the opportunity to learn the business of distributing natural gas. To foster professional growth and development the intern is expected to participate in weekly Lunch and Learns, field trips, and individual and group projects. All interns will provide a summary presentation of lessons learned to Company management at the end of the program. Interns are expected to fulfill a 12 week commitment. This position is 5 days a week for a total of 40 hours a week.

Interns can expect to gain the following from this Internship:

- Business communication skills verbal and written
- Project management skills
- Engineering evaluation and analysis
- Professional environment experience
